

Computer Network Consultants, LLC.

a Baton Rouge Computer Services Provider

Who we are

Computer Network Consultants was founded in 1997 to be a complete client/server and digital solutions company. Our goal is to provide sound professional solutions to our clients, such as Managed and Remote service monitoring, (LAN/WAN) Local and Wide Area Networks, (VPN) Virtual Private Networks, Database and Applications Solutions, Security Audits, e-mail, virus scan, backup and remote management solutions. This unique approach allows us to tailor fit specific solutions based on our clients' needs, utilizing the latest technology available. CNC provides daily IT support and IT services to hundreds of clients all over the southeast, with honesty, integrity, and technologically-sound solutions.

Computer Network Consultants is an IT Solutions Provider and IT Consulting company for New Orleans, Louisiana and the surrounding areas. From Slidell to Baton Rouge, CNC provides computer information technology support in a tailored fashion. We are the leading Computer Systems Consulting, Services and Support Company in New Orleans Louisiana, and are a Microsoft Certified Solutions Partner. We maintain this status by providing a commitment of quality and pre-emptive support to our clients. Certified Support, by Certified Professionals, who truly are skilled in today's technologies - That's CNC.

a Knowledgeable Team

PC and MAC systems support (desktops, laptops, servers, and phones), Networking Services, End-User Support, Email Support, Applications Support, Mobile Phone Support, Integrated Phone Systems Support, Hardware Support, Backup and Recovery Services, Emergency Support and Planning, One-Off Calls and Long-Term Support Contracts, Applications Development, Database Development, Support and Maintenance, Web Sites and Web Applications Development and Support, Office Applications Support and Training, remote monitoring, and much, much more.

Your business may be small, with just a few computers and employees.
Your business may be large, with thousands of integrated systems and employees.
Either way, Our business, is to support your business. And we do it with Pride.

a Total Consulting and Services Solution

We offer on-site, on-demand, end-user support. We handle complete site setups, or a simple request to move a computer to another room. CNC provides an online Support Request system that notifies every technician on our team to your request. This facilitates the fastest response, from the most knowledgeable staff, for whatever your request may involve.

a Proud History

We have a 10-year history of building long-term service-oriented relationships that enabled CNC to build a business from referrals alone. With hundreds of satisfied local businesses, receiving complete IT support from CNC, we are very proud of our achievements, and proud of what we do every single day.

a One Hour Trial

We're ready to put to the task, and show you the difference. If you are considering making the switch to CNC, mention this advertisement when you contact us. You will receive 1 hour of support, to be used however you wish, at no charge.* We are so certain you will see the difference, you will never have a need to call anyone else.

* You must be a small business, located in or around in or around New Orleans, and be a new CNC customer.
